BRAC SYSTEMS INC. ANNOUNCES THE SALE OF A SEMI-COMMERCIAL GREYWATER RECYCLING SYSTEM TO THE NORTH GEORGIA TECHNICAL COLLEGE, USA

Montreal, Quebec, Canada, April 29th, 2011 - Brac Systems Inc. (BAAC - OPEN MARKET - Frankfurt Stock Exchange) - Brac Systems is pleased to announce the sale of a semi-commercial greywater recycling system to the North Georgia Technical College,

Clarkesville, Georgia, USA.

The semi-commercial greywater recycling system will be installed in the North Georgia Technical College's reconstructed Hoyt Coe building. The renovation of Hoyt Coe will be a major step forward in the effort to dramatically improve the energy efficiency of the Clarkesville campus while providing new classrooms and restrooms for students.

The reconstructed 25,200 square foot Hoyt Coe building will cost \$6 million, funded by the Georgia State Government. "This will be a particularly pleasing and interesting project for Brac Systems with this technical college installation." Said Emmanuel Brien, Director of Research & Development, Brac Systems Inc. "The students, I believe, will be extremely interested in this technology and will take steps to understand and gain knowledge first hand of the environmental impact greywater recycling systems can achieve." Concluded Mr. Brien.

The goal of the Hoyt Coe project at North Georgia Technical College was to increase energy efficiency of the building while reducing its overall environmental impact. The Hoyt Coe Building is expected to receive a Leadership in Energy Efficient Design (LEED) silver certification with an environmentally responsible design by including energy and water conservation and innovative landscaping.

Brac Systems greywater recycling and rainwater harvesting systems are installed in all levels of educational facilities providing proof the value and high regard Brac Systems Inc. product range are held. The continued U.S. federal and state governments along with the Canadian federal and provincial governments support for projects like the North Georgia Technical College provides positive expectations of continued sales within the North American education sector.
