

The **solution** for water shortages

April 17, 2008

Attention all Distributors, Representatives and Dealers,

Please be advised that our Brac System warranties will only be honoured if the registration form is returned to us within 60 days of purchase. We include this registration form in the installation manual that is shipped with each system. Attached is the form should you require it for your clients. We will allow a six (6) month grace period from the date of purchase by the Distributor/Rep/Dealer to the purchase date by the end user.

Inquiries regarding warranties should be directed to the distributor, representative and/or dealer who sold the system to clients within their own assigned territories. This means that the distributor and dealers are to inform their clients to fill out the form and send it out to our facility within 60 days otherwise the warranty is void. If the system is installed by anyone other than a certified plumber the warranty is void. The information regarding the plumber has to be indicated on the warranty registration form as well.

Please call should you have any questions,

Regards,

Nathalie Blouin
Sales Executive Assistant
Brac Systems Inc.
